

Slalom E Rider Sweeper

The SLALOM is the small ride-on sweeper designed for cleaning particularly awkward areas with narrow passages with agility.

Its compact dimensions allow it to pass through doors and lifts of just 80 cm width.

With the optional Kit Carpet, Slalom can brush carpet surfaces quickly. It is cheap to buy and maintain, but does not impose limits for use thanks to its strong and reliable construction.

WHERE TO USE

With a theoretical cleaning capacity of 6050 sq.m/hour the Slalom is suitable for cleaning small to medium sized areas, indoor and outdoor, such as:

**Warehouses - Workshops - Small and medium industrial premises - Multi-storey and outdoor car parks
Service stations - Leisure facilities - Hotels - Campings and villages - Supermarkets and shopping centers**

FEATURES AND BENEFITS

- Max cleaning width: 1100 mm
- Hopper capacity: 50 lt - Filter area: 3 m²
- Suction on side brushes
- Vacuum cut-off for wet sweeping
- Electric dust filter shaker
- Quick adjusting of main and side brushes
- Main brush in PPL
- Right side brush in PPL
- Hopper on wheels
- Super-elastic tyres
- Lifiable flap
- Service and parking brakes
- Flashing light

OPTIONAL ACCESSORIES

A wide range of optional accessories ensures the Slalom fits your needs: choice of different brushes and filters, left side brush, dust conveyor, beacon, reverse alarm, pails for hopper emptying, lights and much more. RCM are also available to design specific accessories to meet your particular needs.
