

Atom Rider Sweeper

ATOM.3 is a compact sweeper made to clean small and medium sized internal and external environments quickly and efficiently.

Those who use it feel immediately at ease because, of the comfort and natural kind of drive, like a car.

Reliable and simple to use, the ATOM.3 is the ideal solution for cheap and efficient cleaning.

FEATURES AND BENEFITS

Side brush suction - Dust buster system prevents dust to be raised by side brooms, improving the cleaning performance and operator comfort.

Large filtering surface - ATOM has one of the largest filtering surface in it's market segment, ensuring perfect dust vacuuming.

Controls located on the steering wheel - Main controls are built in the steering wheel for easier cleaning operators.

Large collection capacity - ATOM.3 has one of the most capable hoppers in its market segment, with great emptying possibility.

Reliable and easy to maintain - Thanks to solid, simple and tough technology. Special attention has been paid to the easy accessibility to the main components.

OPTIONAL ACCESSORIES

A wide range of optional accessories ensures the ATOM fits your needs: a left side brush arm, hopper pails, vacuum cleaner, on-board battery charging, dust conveyor, 4 batteries (6V - 180Ah) and much more. RCM are also available to design specific accessories to meet your particular needs.
