

## ELECTRIC PALLET JACK - 2.0T

**BLDC 48V**

**100%** MIN 2.5 HRS BATTERY LIFE

- Ultimate solution for moving heavy loads
- Compact & robust design
- Fast charging Li-ion batteries
- Easy battery replacement
- Great gradeability performance
- Powerful drive & pump system

<b>Body Length (L2):</b>	386mm	<b>Max. Gradeability (laden)</b>	7%
<b>Turning Radius:</b>	1336mm		
<b>Weight:</b>	149kg	<b>Max. Gradeability (unladen)</b>	16%

**\$3,900 +GST**

*Spare Battery: \$750*

### Gradeability Performance

The frame of the truck is surrounded by stamped steel elements ensuring the protection of components.

Forks of the truck are shaped for easy entrance and exit from pallets. Full length double sided C-shape reinforced forks significantly increase strength and rigidity of the frame.

Strong steel apron protects the operator's feet during work and secures the truck's components from collisions with objects.

### Maintenance Friendly

There are no hoses or pipes used in the hydraulic lifting circuit which significantly improves reliability and reduces the amount of potential problems related to leakages through connectors or their seals.

### Robustness

Wide mast provides perfect observation of the forks, the field of view is clear and not interrupted by mast sections, cylinders or chains.

Real mast profiles are used to maintain performance of the jack during its life cycle.
