

Byte II Walk Behind Floor Scrubber

Byte is the new small 53 cm or 61 cm scrubber/drier, economical and very compact that will surprise you for its dirty solution pick up capacity with every turning radius. Small, yes but very generous in its performance. Available with traction drive. The 531T version is single brush 53cm scrub head and the 612T version has twin brushes with a 61cm scrub head.

WHERE TO USE

With a theoretical cleaning capacity of up to 2,745 sq.m/hour this unit is suitable for cleaning smaller sized areas such as:

Pools and Sport facilities - Hospitals - Hotels and Restaurants - Supermarkets - Small and medium industrial premises - Workshops - Shops and Showrooms - Car dealerships and Garages

FEATURES AND BENEFITS

Perfect dry turning - It dries the wet areas completely when turning, leaving the floor dry and safe, reducing cleaning times

Vacuum protection - The vacuum motor has triple protection; a floater against water, a filter against debris, and a plastic tray against foam.

Easy to use - Simply press the ONE TOUCH switch, and Byte II automatically starts to scrub and dry floors whilst opening the flow of detergent.

Long working runtime - Thanks to its huge power efficiency, Byte II can work up to 4 hours with a single charge

Easy tank cleaning - The surface of the recovery tank is flat for an easy and complete clean.

Electronic traction - This version allows an increase to hourly performance, Byte II (T) is easy to drive. Speed can be adjusted according to the operator's needs.
